

Ornament Maker

_	 		
_	 	 	
_			

In the physical calendar, this puzzle came with a physical ornament. Print out this page to make your own copy of the ornament. (If you want, use thick paper and hang it on your tree when you're done!)

These instructions are not a puzzle. The puzzle consists of the ornament you make, along with the previous page.

- 1. Cut out the shape along the outer solid line (both circles together in one piece)
- 2. Fold along the dotted line to make a double-sided disc. Stick it together with tape or glue.
- 3. Punch a hole through the dotted circle.
- 4. Tie a string through the hole for hanging.
